

Enterprise Architecture & Governance Gap Analysis Workshop

Opportunities are made,
not found

An outsider's perspective can bring unexpected value to your organization

In today's fast-paced and rapidly changing world of Information Technology environment, the appropriate use of technology and strategic business planning solutions tailored to your business needs and objectives is the key to your success. With an in-depth understanding of technology infrastructure along with hands-on experience gained through working on critical issues in key industries of the IT marketplace, TLC is committed to providing you with top-end consulting services and solutions to meet your unique business challenges.

About Infrastructure Technology Roadmap Workshop

Infrastructure Technology Roadmap provides a comprehensive methodology for performing a gap analysis of the organization across a customer's IT capabilities based on their Business and IT initiatives.

Based on identified gaps and customers project priorities, it delivers detailed roadmaps and prioritized action plans to close the gaps and enhance the customer's IT capabilities landscape.

It helps customer's in carrying out forecasting, planning, and budgeting for their upcoming projects.

- Enterprise Architecture: Information System Architecture, Business Architecture Alignment, Technology Architecture, Transition Planning, Enterprise Architecture Governance
- IT Governance & Management Controls: Acquire and Implement, Plan and Organize, Deliver and Support
- Application Portfolio: Application Portfolio Management

What are the problems we are trying to solve?

We are addressing one or more of the following when working with our client directly:

- **No Roadmap**: Vision may or may not exist, but regardless they don't know how to achieve it.
- **New CIO** who is trying to understand their environment in a structured and impartial fashion.
- **Silo'd initiatives**: Current projects are independent with unclear linkages

Benefit to the client CIO:

- **Roadmap to IT Vision**: Provides the CIO with roadmaps and action plans to achieve their IT Vision.
- **Holistic view**: Provides the CIO with holistic, big picture view, to share with peers and IT organization.
- **Communications**: Facilitates better communications among peer organizations.
- **Prioritized**: Positions current IT projects in the roadmap framework, to reinforce priority and sequencing.
